

POSSIBLE FRAUDULENT ACTIVITY

Subject: Sharpe Mixers, False Representation

October 29th, 2009

NOTICE:

It has been brought to our attention that a company within China, Baosheng, may be falsely representing themselves as a Sharpe Mixers' dealer. Sharpe Mixers has never done business with Baosheng (including Zhengzhou Baosheng, Wuhan Baosheng, Shantou Baosheng & Hong Kong Baosheng) and has not authorized them to sell our equipment. Documents submitted from Baosheng with our logo or my signatures may be forgeries. Mixing equipment supplied from this company bearing the Sharpe Mixers logo may be counterfeit. We will be pursuing this matter through our Chinese legal counsel.

Baosheng Is Not Sharpe's Dealer

Our Factory Representative, Washington International (Shanghai), oversees all Sharpe Mixers business throughout the People's Republic of China. You may contact Washington International directly at (86) 21-5103-6981.

The authenticity of any quotes, parts, or mixers may be verified through our website. Please visit www.sharpemixers.com/authenticity.htm and fill out the Sharpe Mixers Authenticity Confirmation form. We will investigate and reply to you as soon as possible.

Sharpe Mixers has been in business since 1953, constantly refining and improving our equipment and engineering capabilities over nearly 60-years of doing business. Copies of our nameplates are easy to make, but the excellence and quality of the equipment we build, and the engineering, design and service we provide are not so easily copied. Demand authentic Sharpe Mixers for equipment that will work the first time, and provide the results you want for the future.

Best regards,

Jay G. Dinnison, CEO
Sharpe Mixers, Inc.
