

# Sharpe Points

SHARPE MIXERS NEWSLETTER, OCTOBER 2011

## Join Sharpe at Process Expo

BY DON GEYER  
CUSTOMER SERVICE MANAGER

Mark your calendar for this big event in Chicago, Oct. 31 - Nov. 4, and come see us at [booth 5123](#). Admission is free!

[Process Expo](#) is one of the largest shows dedicated to process equipment for food and beverage. It gathers the industry's leading processing and packaging equipment manufacturers in one convenient place. Here you will find solutions for your most critical issues, and new technologies that will give you an advantage over your competition. With experts from all segments of the food-and-beverage industry, you'll find crossover opportunities that you might not have realized existed.

Process Expo is the premier worldwide trade show for leaders in the food-and-beverage industry. We are excited to be part of it and look forward to seeing you there!

As a leading mixer supplier in the food-and-beverage industry, [Sharpe Mixers](#) will be offering two keynote presentations.

### Find Sharpe at the show

#### Easy, clean and sanitary design options for mixers and agitators

Kyle Sides, Applications Engineer and Director of Sales, will be offering this presentation

Wednesday, Nov. 2, from 1:15 to 2:15 p.m. in room S102A.

The seminar will focus on mixer and agitator options and their impact on price and quality. Cleanability is a leading requirement in the food industry, and this presentation will help processors meet new 3-A requirements and standard practices.

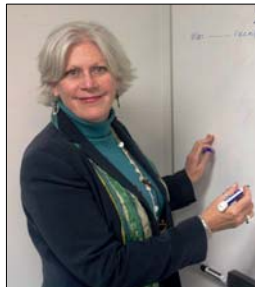

Kyle has worked at Sharpe Mixers for 15 years. He has a wide range of field experience and has traveled around the world. Kyle designs and quotes sanitary mixers for the food and pharmaceutical industries, with an emphasis on easy-clean applications.

#### Spanish presentation: Easy, clean and sanitary design options for mixers and agitators

Laurie Thayer will offer this presentation Monday, Oct. 31, from 9 to 10 a.m.

Laurie has been with Sharpe Mixers for four years. She focuses on securing the highest-quality materials at the best cost for the mixer components Sharpe Mixers manu-

factures. She has traveled to Latin America to assist in start-up operations, and she supports the design engineers in complex translations during the technical and quotation phases of the business. As a director, Laurie is involved in company strategies and future business direction.

## Learn how our tachometer can help you

BY DON GEYER  
CUSTOMER SERVICE MANAGER

Need a tachometer that can be mounted for remote display? [Sharpe Mixers](#) has your answer!

The [Autonics MP5 Series](#) high-performance tachometer supports 13 kinds of operation modes to measure various industrial numerical data including frequency, absolute time and error ratio, passing time and error ratio. With diverse functions and output types, the series is widely used in many industrial fields. Now you can enjoy this tachometer with your new or existing Sharpe mixer.

This tachometer is offered with 110/220 volt input. It can be provided with an output signal to feed another tachometer display in a remote-control room, or add an alarm or other device.

[Download](#) our new brochure to learn more about how this can help you.

Sharpe Mixers also offers a battery-powered tachometer, the [SenDEC Motor Tach](#), which performs tachometer, hour meter and Flash Alert functions.

Don't forget to visit [our web site](#) to learn of other exciting new products.
